Continuation of 3. Applicant's reply has overcome the following rejection(s): rejection of claims 1-10, 21, 22 and 24 under 35 USC 112, 1st paragraph.

Continuation of 5. does NOT place the application in condition for allowance because: regarding the arguments directed to claims 1-10, 21, 22 and 24, Applicant has not demonstrated that the additional elements contained in the prior art materially effect the novel characeristic of the present invention, specifically, the neutron absorbing properties. It is asserted that the additional elements do not affect this property. Regarding the arguments directed to claims 11-14, Ziolkowski teaches (see paragraph spanning cols 3 and 4) that the alloy is cast into ingots. Thus, Ziolkowski teaches a cast alloy.
